

# Waterworks Operator Training Newsletter

## September 2017

Good afternoon! Attached is the September 2017 Operator Training Newsletter for all MSDH-BPWS Regions and following this message are the trainings for your particular region. If you have questions about the counties in your MSDH region, please see the map on the third page of the attachment to this e-mail.

Also, remember to please contact the training agency to make sure the training will be held. The information contained in this document was gathered from the MSDH-BPWS Training Calendar, so we have no information about if a particular training may be cancelled due to unforeseen circumstances.

MSU Extension has created a new way for operators to view their water CEU hours. This new method has been designed to be easier to access on any computer, more reliable for operators, and can now be used on your phone/mobile device.

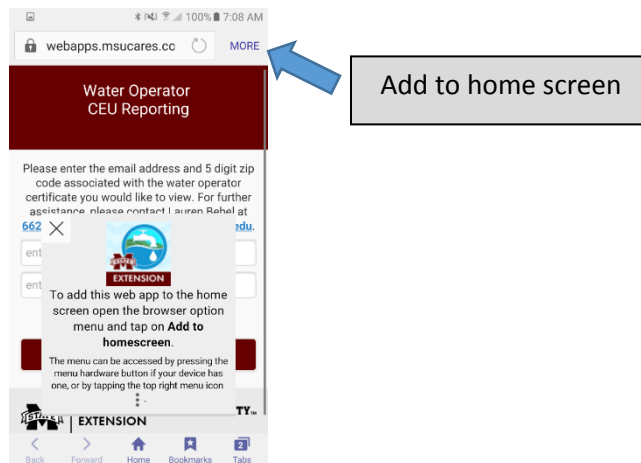

In order to use this new method, you must have an email address listed in our database. The issue we've seen is that operators either do not have an email address listed, the email address is old and they no longer use it, or their email address is misspelled in the database. These issues cause operators to be unable to use this new method, since you will use the email address listed in the database to "log in" and to receive your CEU record. No email address = no CEU login.

To view your CEU hours, use the following steps:

1. Go to [webapps.msucares.com/water-operator](http://webapps.msucares.com/water-operator) (you must type in the entire website as it is shown here)
2. This same website works on a computer. If you are using a computer, skip to step 4.
3. If you are using a phone, when the popup appears at the bottom of the screen:

- a. iPhone users: click the  icon and **Add to Home Screen**. This will create an app on your phone for you to use in the future.

- b. Android users:

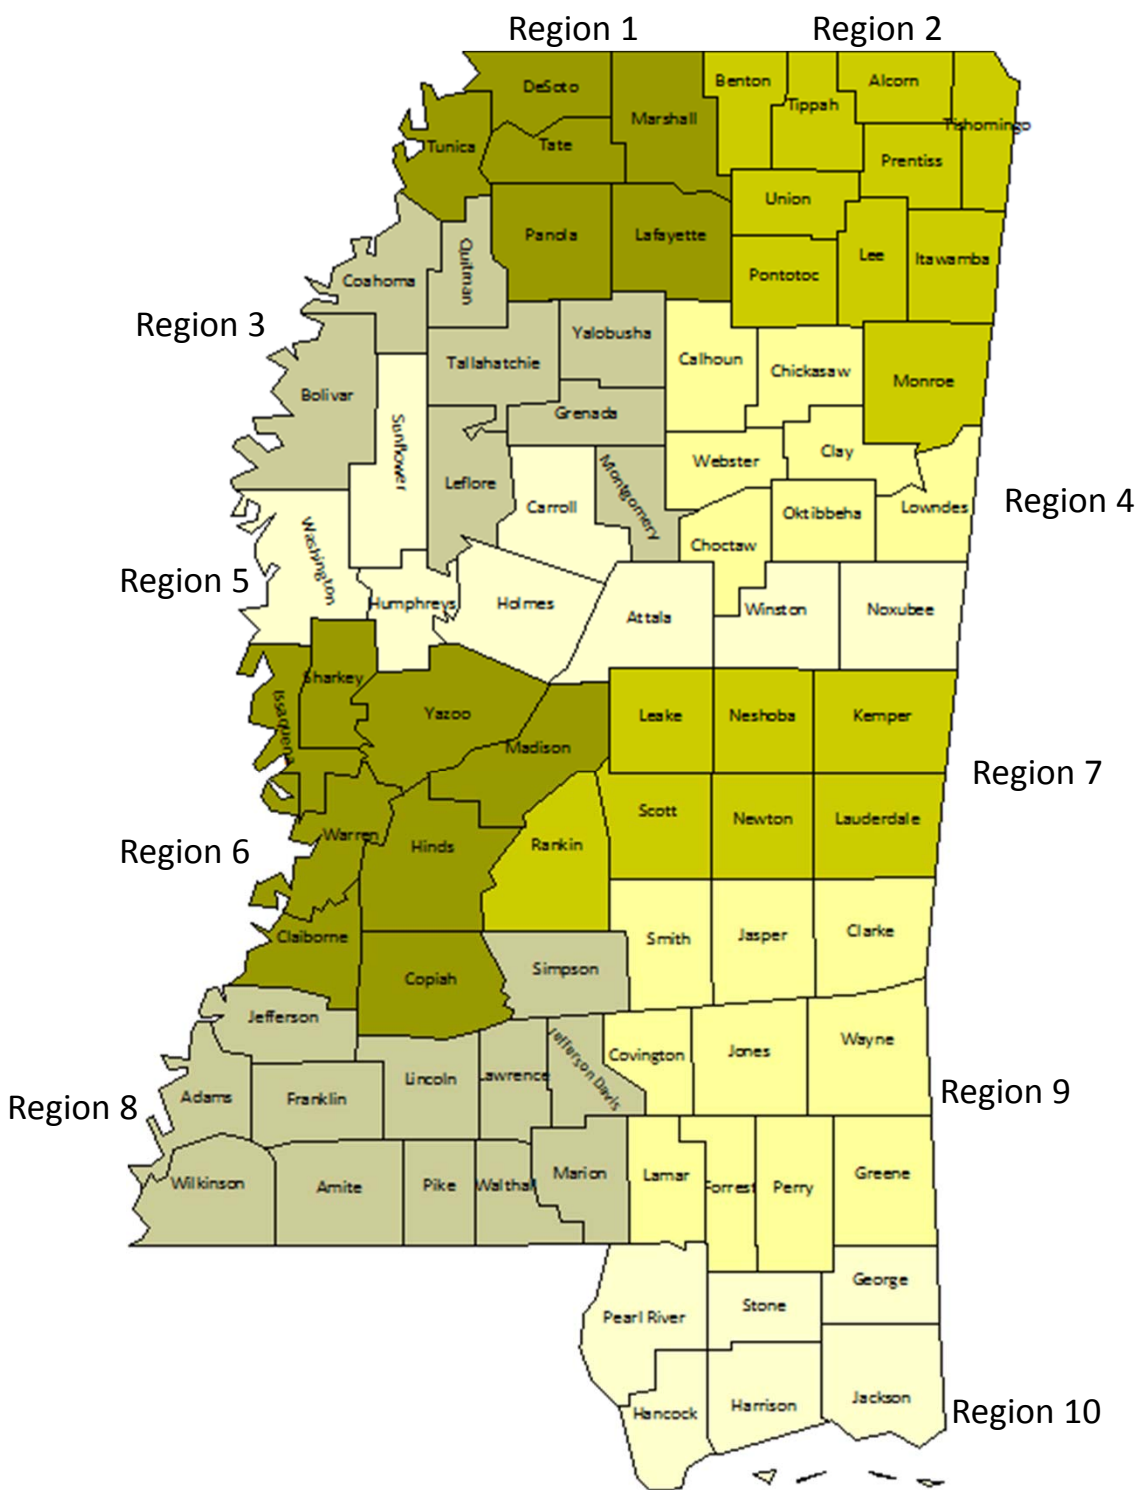

4. When you have created the app on your phone (whether iPhone or Android), enter your email address and zip code that you have on file with the database. These must be entered without typos to ensure that the system can send your report. You may need to use your home or work address zip code, depending on which one is listed as your mailing address in the database. If one doesn't work, try the other.
5. Click ***Send Report***
6. An email from me will be sent to you containing a PDF attachment of the CEU's you have earned in your current certification term.
7. If you get an error message, then your email address or zip code needs to be updated in the database. You must have a current/active email address to put in the database, because your CEU record will be emailed to you at that address. Please do not provide an email address that you can no longer log in to. If you need to update this information, please call me at 662-325-6807 (feel free to leave a voicemail with your first and last name and preferred email address and I'll take care of it), or to email me at [lauren.behel@msstate.edu](mailto:lauren.behel@msstate.edu) and include your first and last name and preferred email address.

Thanks,

Lauren Behel

Mississippi State University Extension Service
