

MHV Environmental Survey

Mississippi Homemaker Volunteers send a number of recycled items to locations outside their community. These are excellent projects. In some counties, those same items can be used locally. This survey asks you to determine what items may be needed/used in your county. This does not mean MHV will not support state projects. There may be items needed in your county that other counties could assist with that are not part of the state projects. This survey also looks at some new areas in environmental activities where MHV members might be involved. Please complete and return to the State MHV Environmental Chair.
