TO CREATE
A STATE-OF-THE-ART
TRAINING FACILITY.**

At T³F, industry experts will offer safety education and technical training, including:

- Technical aspects of inspection and how to treat different foundation types.
- Industry-approved, safe chemical application methods and product updates.
- Initial training and testing for registered technicians and license/certification candidates.
- Continuing education units (CEUs) and approved recertification-training opportunities for licensed and certified applicators.

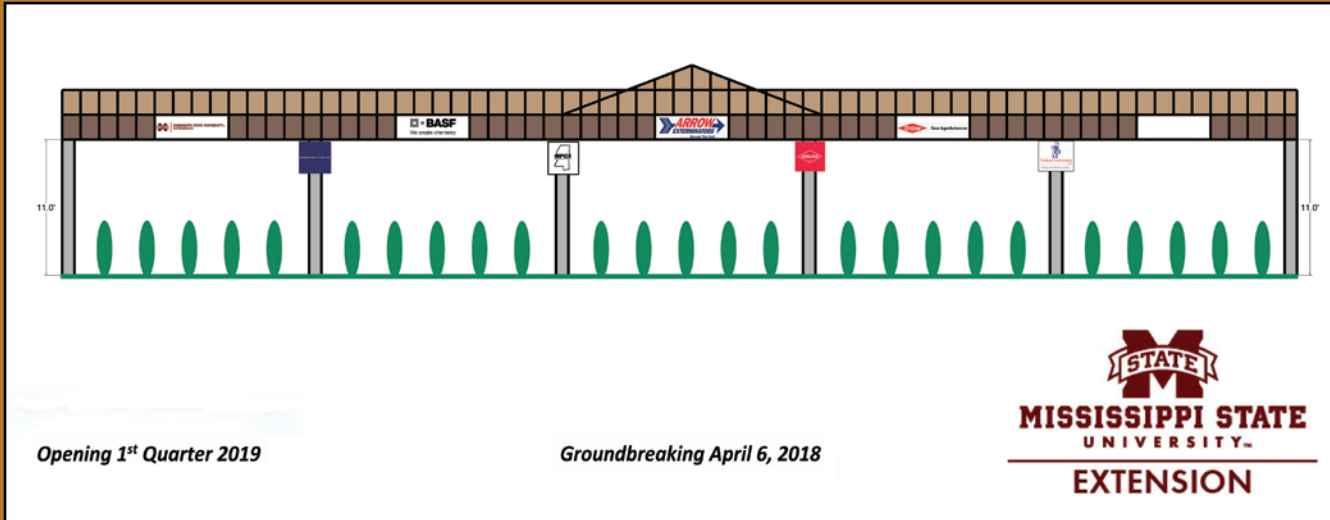

**BECOME A PARTNER TO BUILD
MISSISSIPPI'S TERMITE TECHNICIAN
TRAINING FACILITY.**

Join Extension and MPCA to build T³F, which will feature outdoor training space for hands-on learning in the latest construction and associated application techniques.

Pest-control professionals will review and learn the latest science-based application methods and trends in termite treatment and control.
