During this time of concern about COVID-19, some people are choosing or needing to isolate themselves and their families at home. If you and your family need to stay home for an extended period of time, planning and serving meals can be a challenge. We have created the following meal plans, recipes, and shopping list to make it a little easier.

SHOPPING AND PLANNING TIPS

- Buy the foods your family would typically eat. Now is not the best time to experiment with new recipes.
- Buy what you can afford and what you have room to store in your house. For example: If you have a small freezer, focus on stocking more canned goods.
- Make sure to have a can opener and strainer.
- Rinse canned vegetables and beans before using them to lower the sodium content and create a healthier meal.
- Many meals can be made ahead of time and frozen, especially soups, chilis, and casseroles. Choose your favorite recipe and keep a few in the freezer for later meals.
- Scrambled eggs can be cooked at once in bulk and stored in the fridge for up to 4 days.
- Instant oatmeal, instant rice, and instant potatoes can all be substituted for the real thing.
- Stock 1 gallon of water per day per person in your household.
- Be creative! These recipes and meal plans are just suggestions. For example: If your family doesn’t like canned tuna, swap it for another protein of your choice.
- **ALLERGEN INFORMATION:** These meal ideas contain several common allergens: peanuts or tree nuts, wheat, and milk. If someone in your family has an allergy, here are some common substitutions:

  - Peanut butter: substitute with a different nut butter, like almond butter.
  - Wheat: substitute wheat noodles/bread/tortillas with non-wheat versions.
  - Milk: substitute cow’s milk with soy milk, almond milk, or lactose-free milk.
  - Eggs: substitute with tofu, bananas, or applesauce.

FREEZER TIPS

- Buy in bulk to save money. Stock your freezer with a variety of 2- to 3-pound packages or bags of meat such as ground beef, turkey, chicken, pork, and fish. Unseasoned frozen vegetables are useful to have on hand to add to recipes and soups or as an inexpensive side to add to any meal.
- Bread, tortillas, and microwaveable rice can all be frozen and last weeks longer than they would in the cabinet or pantry.
- Milk and cheese both freeze well in their original packaging.
**GROCERY LIST:** This grocery list is for a family or household of FOUR. Please cut in half for two, or multiply for larger families.
