Population Pyramid 2016

Population Pyramid: A graphic profile that shows the age-sex distribution of the given population. Age groups are depicted on the y-axis and the percentage of the population on the x-axis. Sex is shown on the left/right sides. The population pyramid provides a picture of the composition of the population.

Definition of Measures and Data Source

Measures	Definition	Data Source
Poverty Rate	Number of people with household incomes at or below 100% of their poverty threshold.	Small Area Income and Poverty Estimates (SAIPE), U.S. Census Bureau; American Community Survey (ACS), 2012-2016 5-year estimate, U.S. Census Bureau
Poverty thresholds	Income dollar amounts to determine a household's poverty status. Thresholds vary according to the size of the household and the ages of its members.	
Deep poverty	Household incomes below 50% of their poverty threshold.	
Household Income	Income of the householder and all other people 15 years and older in the household.	Small Area Income and Poverty Estimates (SAIPE), U.S. Census Bureau; American Community Survey (ACS), 2012-2016 5-year estimate, U.S. Census Bureau
Median household income	The point that divides the household income distribution into halves, one-half with income above the median and the other with income below the median.	
Assets and Financial Security		
Net worth	Assets minus liabilities (i.e., how much a person owns minus what they owe to others).	Prosperity Now Scorecard; Survey of Income and Program Participation (SIPP) 2014, U.S. Census Bureau
Zero net worth	Percentage of households that have zero or negative net worth.	
(Liquid) asset poverty	Percentage of households without sufficient net worth (based on liquid asset) to subsist at the poverty level for three months under a financial crisis such as a job loss, medical emergency, or the need to fix a car.	
Liquid asset	It includes cash on hand or an asset that can be readily converted to cash (for example, bank account, other interest-earning accounts, equity in stocks and mutual funds, and retirement accounts).	
Unbanked	Percentage of household not having a checking, savings, or money market account.	
Underbanked	Percentage of household having a checking or savings, but also obtaining financial products and services outside of the banking system.
