

# The Economic Contribution of Forestry and Forest Products in Lowndes County

## Lowndes County

The forestry and forest products industries are a major component of Lowndes County's economy. The forest-related economic sectors generate value not only within their own sectors but also in other sectors of the economy. The multiplier effect of economic activity in one sector and the impacts on other sectors can be estimated using input-output analysis. Using 2022 data, this study estimates the economic contribution of the forestry and forest products industries to Lowndes County, Mississippi.

## Employment and Income Contributions

Forest-related economic activity in Lowndes County during 2022 generated 1,266 jobs and nearly \$80.98 million in income. That's about 3.62 percent of jobs and 3.85 percent of income in the county. Employment is the number of full- and part-time jobs in all sectors of the economy. Income includes all forms of employment income, including employee compensation (wages and benefits) and proprietor income, also referred to as labor income.

## Total Output and Value- Added Contributions

Over \$470.86 million, or about 5.76 percent of economic output in Lowndes County, is generated by the forestry and forest products industries. Forest-related value-added amounted to over \$160.67 million, or about 4.44 percent of all value-added in the county. The value of all goods and services produced is defined as total output. Value-added is a portion of total output and represents the creation of new wealth.
