

## **Waterworks Operator Training Newsletter**

**January 2017**

Good afternoon! Attached is the January 2017 Operator Training Newsletter for all MSDH-BPWS Regions and following this message are the trainings for your particular region. If you have questions about the counties in your MSDH region, please see the map on the second page of the attachment to this e-mail.

Also, remember to please contact the training agency to make sure the training will be held. The information contained in this document was gathered from the MSDH-BPWS Training Calendar, so we have no information about if a particular training may be cancelled due to unforeseen circumstances.

With upcoming winter weather headed our way around the busy holiday season, I would like to remind you of the emergency management courses for utility workers to become NIMS certified. The Emergency Management Institute (EMI) offers self-paced courses designed for people who have emergency management responsibilities and the general public. All are offered free-of-charge to those who qualify for enrollment. The following three courses are beneficial to utility workers, and should be taken in the order they are listed.

<http://training.fema.gov/is/courseoverview.aspx?code=IS-700.a>

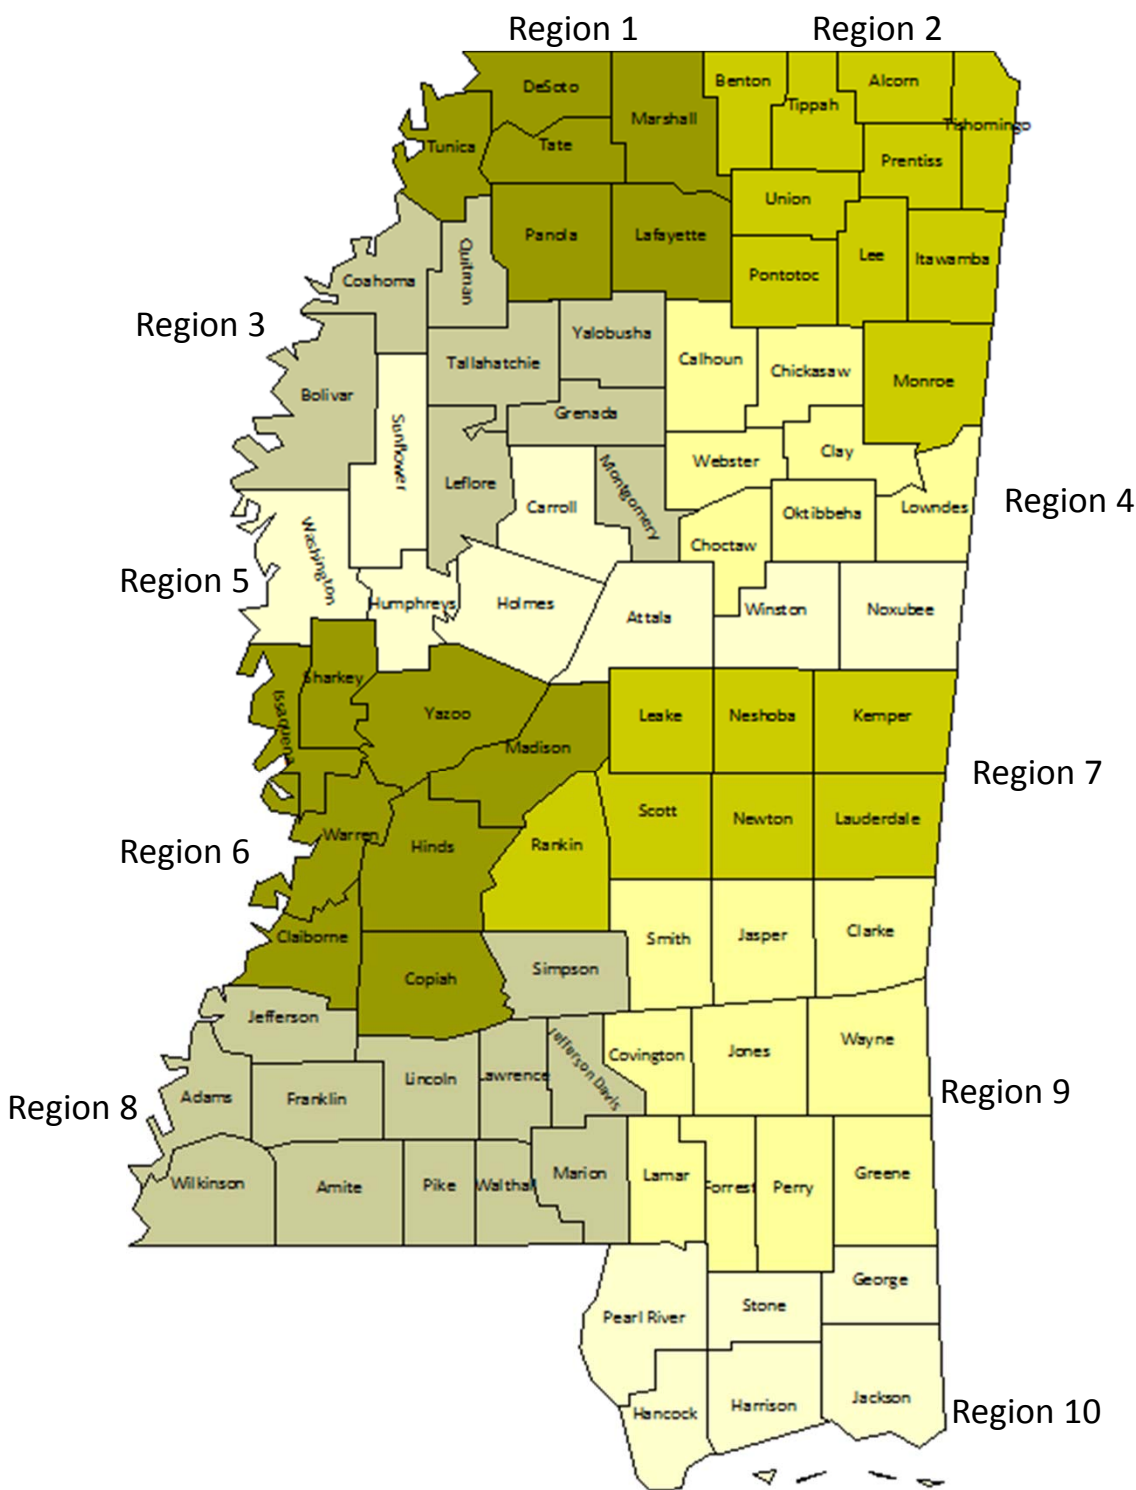

<http://training.fema.gov/is/courseoverview.aspx?code=IS-100.pwb>

<http://training.fema.gov/is/courseoverview.aspx?code=IS-200.b>

Thank you for all you do, and have a safe and happy holiday season!
